
Posturelate Introduction Anti Gravity Kinetic Chain

electromagnetic quantum gravity - arxiv - concise summary of electromagnetic quantum gravity 7 1. introduction 31 2. space, time, matter and cellular automata theory 37 3. cellular automata theory 38 4. the quantum vacuum and it's relationship to ca theory 42 5. the big bang (start of simulation at $t=0$) and ca theory 45 6. why our universe is mathematical in nature 45 7. **the gems (gravity electro- magnetism super) unification ...** - the gem (gravity electro-magnetism) unification theory brandenburg (2007, 1995, 1992) uses two postulates: - gravity is equivalent to an array of exb drifts created by the quantum zpf (zero point fluctuation) - gravity and em forces and protons and electrons separate from the planck scale vacuum with the appearance of a 5 th dimension of ... **physics 226: particle physics phenomenology lecture 1 ...** - term "standard model" is an indication of our greed reminds us that there are many unanswered questions i does particle physics provide a solution for dark matter? i why is gravity so much weaker than the other forces? i why is there so little anti-matter in the universe? i are there extra space-time dimensions? i why are there 3 generations of quarks and leptons? **part 1: introduction - trusls** - • the rol is a 'fundamental postulate of our constitutional structure.' • at most basic level, it vouchsafes to citizens and residents of the country a stable, predictable, and ordered society in which to conduct their affairs - it provides a shield for individuals from arbitrary state action **electromagnetic forces and generalized gravity** - electromagnetic forces and generalized gravity kevin gibson january 4, 2011 electrostatics and energy a particle of charge q moving in an electromagnetic field can be described by motion under the vector potential a and a scalar potential v as follows $1 \text{ uem} = q \cdot v - q \cdot c \cdot a \cdot v$ (1) **gravity as lorentz force** - then the gravity is the lorentz force of this electromagnetic field. 1 introduction the idea of the relativistic gravitation theory was proposed by poincaré [1] : "in the paper cited lorentz found it necessary to supplement his hypothesis so that the relativity postulate could be valid for other forces besides the electromagnetic ones. accord- **newtonian gravity and the bargmann algebra arxiv:1011 ...** - newtonian gravity and the bargmann algebra ... 1 introduction 1 2 einstein gravity and gauging the poincaré algebra 2 ... the anti-symmetric part of this equation, together with the curvature con-straint (2.6), shows that the anti-symmetric part of the Γ -connection is zero, **negative energy (enthalpic) gravity - vixra** - postulate for the dirac sea, the feature of negative energy being the rise in kinetic energy in gravitational relative motion between objects under the influence of each other, speeding up. this issue is newly addressed with the application of the golden ratio and associated relativity of the motions of mass under the influence of gravity. to a **fifth force vacuum dipole repeller, needed to create all ...** - the gravity around black holes is assumed to be based only on the zero point oscillation ... clusters seem also a support for the fifth force vacuum pressure gravity postulate. 2 introduction. a parallel with le sage gravity. ... the origin of the recently found anti-symmetry of aurora effects in the summer. **i ininmuui - apps.dtic** - course, anti-gravity is a very interesting topic, but one which will be discussed in the next paper on this study. however, a desire to provide some new ideas for anti-gravity has been the driving interest of this paper. thus, some decisions are made here which are necessary to identify particular characteristics of tachyons which would be ... **the application of differential geometry to classical and ...** - the application of differential geometry to classical and quantum gravity clive gene wells churchill college march 1998 a dissertation submitted in partial ...
